This article has been retracted: please see Elsevier Policy on Article Withdrawal (<https://www.elsevier.com/about/our-business/policies/article-withdrawal>).

This article has been retracted at the request of the Authors.

The figures in this article were plagiarized by the authors. The authors included 3 figures in their article without permission from the creator.

One of the conditions of submission of a paper for publication is that authors declare explicitly that their work is original.

Re-use of any data should be appropriately cited. As such this article represents a severe abuse of the scientific publishing system.

The scientific community takes a very strong view on this matter and apologies are offered to readers of the journal that this was not detected during the submission process.
